PROFFESIONAL SUMMARY

- Full-Stack Developer with 3 years of experience building responsive, scalable, and user-focused web applications across multiple platforms.
- Strong focus on modern front-end development using React, JavaScript (ES6+), HTML5, CSS3, SCSS, and Tailwind CSS to create dynamic and accessible user interfaces.
- Hands-on experience working with Node.js, PHP, RESTful APIs, contributing to both front-end and back-end functionality.
- Dedicated in improving legacy codebases, component structure, and enhancing maintainability, performance, and overall code quality.

SKILLS

JavaScript (ES6+), React, Vite, HTML5, CSS3, SCSS, Tailwind CSS, Node.js, PHP, RESTful APIs, JSON, API Integration, MySQL, Git, GitHub, WordPress, Magento 2, ESLint, Agile, Scrum, Postman, Debugger.

WORK EXPIRIENCE

SofttServ

Front-end developer

Feb 2024 - Jun 2025

Remote

- Developed responsive React interfaces using Tailwind CSS, improving cross-device usability and reducing UI inconsistencies.
- Implemented dashboard components integrated with RESTful APIs, supporting real-time data updates and enhancing user workflows.
- Refactored legacy UI modules into reusable React components, reducing code duplication and improving development efficiency.
- Partnered with cross-functional teams to deliver new product features, ensuring alignment between UI/UX requirements and technical implementation.
- Contributed to front-end performance improvements by optimizing component rendering and state management.
- Designed and implemented a reusable input validation component, standardizing form validation logic across the application and improving consistency and maintainability.

Elogic Commerce

Full-stack developer

Jul 2022 - Feb 2024

Remote

- Developed and maintained full-stack web applications using React, Node.js, PHP, WordPress, and MySQL, supporting both front-end interfaces and back-end functionality.
- Contributed to back-end logic, including data processing, authentication flows, and database interactions using Node.js and PHP.
- Built and integrated RESTful APIs to enable seamless communication between front-end components and back-end services.
- Reduced overall website load time by 40% through performance optimization, improving rendering efficiency and resource management.
- Rewrote image-handling modules to optimize image loading and delivery, enhancing page performance and user experience.

EDUCATION

Master's Degree: Law, 2022

Ternopil Academy of National Economy, Ukraine
